SPA INDEX  
MEDIA

Established in San Francisco in 1998, Spa Index Media is a global spa lifestyle marketing agency. We published the first entirely paperless, no-purchase and advertisement-free spa and wellness travel directory of its kind.

Spa Index Media and its group of dot.calm resources efficiently target and communicate with spa and wellness enthusiasts and practitioners all over the world.

Small business owners, global-branded spa and wellness travel providers, and hospitality marketing agencies turn to us to improve brand and spa service recognition, increase consumer engagement, share online wellness marketing campaigns and generate leads.

Our services focus particularly on online marketing campaigns and SEO for spa and wellness business owners, website design and related services for those owners, generating leads and referrals, brand awareness and calendar campaigns for health retreats and resorts.

We work directly with our own client portfolio, as well as globally recognized hospitality and website marketing partners and agencies.

## HEALTH & WELLNESS LEAD GENERATOR SERVICE

For our member Destination Spas, Health and Wellness Retreats and Weight Loss Partners, we offer an optional All-In-One Lead Generation Solution to supplement our Spa Directory Listing Plans. We customize campaigns to deliver streams of targeted and qualified traffic and new business.

Our Health & Wellness Lead Generator Service is a little different than most lead services.

Ours is strictly permission-based in that our consumers, who ask to be connected with our spa and wellness partners, have visited Spa Index or viewed our advertisements *expressly* to find or request referrals to health, detox, weight loss and wellness retreats.

When visiting our Weight Loss Retreats, Detox Retreats, Smoking Cessation or Fitness and Boot Camps featured pages, or viewing our demographically targeted advertisements, our consumers are presented with a custom sign-up form to submit requests for program and enrollment information from our partners. We curate a verified leads list from this group of consumers and share them with our lead subscribers.

By contrast, many mass-market leads, even from travel and so-called retreat finder services, tend to be low quality or of questionable value because consumers have signed up or given permission to be added to your mailing lists in exchange for an incentive, such as a potential prize or a chance to “unlock” non-existent, misleading or bait-and-switch “freebies.”

As a result, these mass-market services tend to attract zero-budget information from persons not truly interested in or committed to enrollment in a destination spa and wellness program.

Our policy to only deal with our consumers in a straightforward and ethical fashion means we only collect sincere, interested, and bonafide leads, each of whom has given permission for our members and partners to contact them with spa and wellness retreat and program information.

In 2017, Spa Index Media launched a personality feature to introduce our readers and members to professionals and leaders with interesting and unique backgrounds and perspectives.

## MEET THE EXPERTS™

This series of short Q&As gives our readers a fast and fun peek inside the lives of interesting, admirable, or innovative spa and wellness industry entrepreneurs and leaders.

## SPACAST™

We interview both shining stars and rising stars in the spa, wellness and hospitality industry -- guests who share new ideas (or explain tried and true methods) for succeeding in an intense industry that is designed to relax and care for everyone.

# WEBSITE POPULARITY

Our mostly advertisement free spa directory has climbed in popularity over a nearly 20 year period. We started with a list of spas in our home state of California, soon grew to include spas and resorts in dozens of countries and regions, and grew yet again to feature special interest features for Destination Spas, Weight Loss and Health Retreats.

Spa Index Guide to Spas enjoys more than a million unique and return visitors in a year. In calendar year 2016, we were visited by nearly 800,000 unique visitors, who collectively viewed our listings, pages, and articles over 3.7 million times, and, when adding how many times pages, listings, articles, images and searches were viewed and shared on social media platforms and through major search engines, resulted in a huge number of hits – nearly 15,000,000 displayed resources seen by people, search engines and the internet universe.

# TESTIMONIALS

*"You guys are super thorough in what you do. You've been our 2nd best Referral Channel over the years. On the Detox Page, you've done MIRACLES in that category. It's been our top performer for quite a few years."*

*-- Fresh Start Health Retreats, Canada*

*"Thank you, excellent service. Analytics derived from Spa Index visits are phenomenal. Engagement statistics scream how targeted your members are for us."*

*-- Green Mountain at Fox Run, Vermont*

*"Thank you so much for your help with my new web site. Your input was extremely valuable in my decision-making. Regarding my marketing package, I would like you to know that I left SpaFinder last year and I realized that it was the best decision I made as ROI was practically non-existent. I feel that Spa Index is such a valuable resource for the best exposure on internet. Your personal knowledge of your advertisers and willingness to help in every aspect of marketing is so transparent in ads for all your clients."*
